

Personalized Finish Terms

- Artisan Finishes** Artisan Finishes feature a superior depth and clarity achieved through multiple finish steps and meticulous hand-work. Each Artisan Finish features a waxy, hand-rubbed, durable, pre-catalyzed formula to ensure that the luxurious, silky hand will endure the test of time.
- Paint Finishes** Paint Finishes will have consistent color results, regardless of wood species selected.
- Physical Distressing** Physical Distressing provides character and age for finishes designed to have an antique, worn look. The technique is achieved by striking the wood with items such as a chain, rasp, or stone to add dimension to the finish.
- Premium Leaf Finishes** Premium Leaf Finishes are created by hand-applying thin sheets of metallic leaf over the wood. A glaze is then added to reflect a soft, metallic glow.
- Sheen** Sheen is achieved with several coats of lacquer that are applied and sanded to a smooth final finish. The lacquer can either be a low, medium or high sheen level.
- Stain Finishes** Wood Stain Finishes utilize stains to penetrate the wood and grain. Thus, wood species and grain patterns selected can cause actual wood finishes to vary from species to species.
- Wood Species** Wood Species is the type of fine wood that is the basis of any finish. Each wood species has characteristic grain patterns which are a key determinant in the final finish.
- Featured Finish** Featured Finishes are suggested finishes on selected items to create a perfect finish to item combination. Most often these combinations are sold at a promoted price and are available to ship quickly. In some instances, these finishes are in stock; however, sometimes, the frame may need to be finished. If this is the case, the finished product will usually ship out in 3 weeks or less. Please check Forefront for availability.

Personalized Finish Matrix Recommended Wood Species & Finish Techniques

Vanguard offers a broad range of styles consisting of several diverse types of wood species. While we do not limit the species that are available for Personalized Finishes, we do recommend using some finishes over others for certain types of wood species. Please refer to the following matrix for our recommended wood species and finish techniques for each personalized finish option.

PRE CAT Pre-catalyzed lacquer is standard on all Vanguard domestic Personalized Finishes. Vanguard Furniture reserves the right to deny any claim resulting from a deviation from our recommended wood species and finish techniques.

PERSONALIZED FINISHES	WOOD SPECIES									FINISH TECHNIQUES
